

ROLE OF TEACHERS IN SOCIETY AND COUNTRY

DR. (PROF.) AJAY KUMAR SINGH
HOD, DEPTT. OF LSW
S. N. S. R. K. S. College, Saharsa
BNMU, MADHEPURA, BIHAR.
Associate - prof.

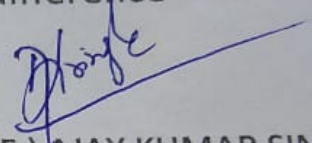

The great Alexander, once said that he is indebted to his father for living but to teacher for living well. The teachers are building blocks of nation who can help in the progress of society and country. India has been the land of great teachers who have contributed in the development of the country.

All the great personalities have acknowledged that their teachers have helped them to achieve their dreams. It is the teacher who makes the bookish knowledge into wisdom which helps to ascend the achievements in life. The values shared by teachers make the learning experience more meaningful. An ideal teacher helps its citizens to make country great and progressive. They are the most vital part of the society through which future of nation can be shaped.

As Albert Einstein once said about the teachers that it is the supreme art of teacher to awaken the joy in creative expression and knowledge. If India has to grow it is necessary that we have good teachers in schools, colleges and universities so that human development can be properly utilized.

The former president of India Dr. Radhakrishnan said that teachers should be the best minds in the country.

The role of teachers in society can be better summarized by the words of Apj Abdul kalam-If a country is to be corruption free and become a nation of beautiful minds the three Key societal members of nation i.e. Mother Father and Teachers can make a difference
